## BIG SHOW IS COMING

Barnum and Bailey Billed  
June 15.

### MANY NEW FEATURES

Grand and New Street Pa-  
rade Will be Given.

Many New Collections are Added to  
the Zoo and Startling Features to  
the Big Circus.

Yea, boys and girls and grown-ups too, the big circus is coming to town and when we say big circus, we mean the very biggest that travels. This fact was announced authoritatively today when the first advertising car of the Barnum and Bailey Greatest Show on Earth came to town and proceeded to illuminate all the vacant billboards with glaring posters, announcing that there will be two performances in Marion on Tuesday, June 15. With the many big sensational features added and the return of the street parade, the circus is in size, what is believed to be the absolute limit. There are five long trains made up of eighty-six double length cars required to transport this big show and it has come to a point of serious consideration with the railroads in entering into a contract to haul so tremendous amount of valuable freight.

Under the biggest tents ever constructed the Barnum and Bailey management are presenting this year an entirely new circus. There are nearly 400 performers who take part in the performance, most of whom are from abroad and they are presenting a series of foreign novelties, all new to this country. First of all in the big feature acts is Jupiter, the balloon horse. This beautiful animal with a daring young lady rider, ascends to the dome of the tent in a balloon and when it has reached its highest point, stands like a statue, while hundreds of rockets are exploded and a shower of fireworks completely envelop both horse and rider. The slightest movement of the animal would mean its destruction as well as that of its nery rider.

Next among the thrillers is Desperado, a young Frenchman, who leaps from the highest point under the dome of the circus tent and alights upon his chest upon a small curved skid. The very simplicity of the act and the absence of mechanical effects, all adds to the terrifying features. The long circus program includes all the noted riders, acrobats, and aerialists who have something new to offer this year.

The trained animal features play a most important part in the program this year, for they include several big acts that are what is believed to be the limit in animal training. Besides several wonderful horse acts which include Karoly's troupe of sixteen coal black stallions a big feature in animal intelligence are the musical elephants. This act consists of a herd of these huge beasts that have actually been taught to play upon musical instruments in time and tune. They do not simply make sound upon the instruments, but produce melody at the direction of their trainer while accompanied by the circus band.

Great stress is laid upon the completeness of the menagerie with the Barnum and Bailey show and in it will be found a collection of animals larger than could be seen in all the zoological gardens in this country combined. There are so many elephants that they are counted in herds instead of singly. A family of giraffes stationed in the center of the menagerie, make a most valuable adjunct to the big zoo, while every known species of beast and bird that can possibly live in captivity is shown in beautiful dens and cages.

P. T. Barnum is looked upon as the most astute showman who ever lived. He believed that in building up a great menagerie, he was doing untold good to the youth of the land. It was one thing for the growing boy and girl to read of the strange animals found by hunters and naturalists in odd corners of the earth, but how much greater it was if these animals could be brought under the eyes of the boy and girl where they could be viewed and studied at close range. That was Barnum's idea and it has been carried out to the letter to such an extent that there is no other collection of animals in the world to compare with this one.

It was good news to all to know that when the Barnum and Bailey Greatest Show on Earth comes here it will again present the free street parade as a part of the daily program but not in any particular will this new procession be similar to those given in the past, by any amusement enterprise. The promise has been made that a procession three times the length of any other with ten times the amount invested and not an old feature would be offered and the promise is more than fulfilled. For four years this circus has out-

led this part of the days program. Those years, however, have been devoted to the creating of new ideas and now we are to see a complete menagerie displayed in open dens, 700 horses of the finest breed, chains of elephants and camels all in Oriental harness, while nearly 1,500 men, women and children are concerned in this big pageant.

It is natural to suppose and to expect this big circus to lead all others in the quality and quantity of its street spectacle as well as in other departments of the big show, yet never before in its splendid history has it displayed such seeming extravagance as is seen this season in the re-establishment of the parade. It is gold, silver, burnished brass, silk and satin in its material make-up and the sight is one of surpassing splendor.

The "Beauty Spot" the Talk of  
New York.

Comstock & Gest's "Beauty Spot" still holds the boards at the popular Herald Square Theatre, Broadway, New York. Nightly the audience greets the song hit of the show, "He Love da Maiden Tender," with up-ropes of applause.

The song is attracting so much attention that the New York Sunday World has arranged with Jos. W. Stern & Co., the publishers, to give it away with next Sunday's World, words and music complete. (Don't fail to get it.)

### Unclaimed Letters

### PECULIAR BIRD SHOW

Shy Feathered Creature is Exhibited by Haberman.

A small, somewhat unattractive but peculiar pheasant enjoying its morning bath attracted much attention in the window of the Haberman Hardware company on South Main street, this morning. A placard in the window states that the pheasant is the Killi Lu or the red eye bird sent from the wilds of South Africa by ex-President Roosevelt. The little bird was the object of much attention, but from the fearsome attitude assumed in the presence of people it appears that it has little use for America.

### Deafness Cannot be Cured

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness caused by catarrh that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

F. J. Cheney & Co., Toledo, Ohio Sold by Druggists, 75c.

Take Hall's Family Pills for constipation.

## RAILROAD JACK VISITS MARION

Lectures to a Large Crowd  
on the Streets.

### PHENOMENAL MEMORY

Can Give Dates and Incidents ad Libitum.

Noted Character Claims He Has  
Not Slept in a Bed for Fourteen  
Years—Leaves For Toledo.

"Railroad Jack" perhaps the best known street lecturer in the world, honored Marion with a call Monday night. It was the first time that the distinguished gentleman has ever demonstrated his wonderful ability to a local audience and his efforts were by no means disappointing to anyone.

The street orator arrived in the city early last evening from Columbus. He missed his train out to Toledo and after learning that he would be compelled to spend several hours in Marion, he gained permission of Mayor Scherff to speak on the street corner. Securing a small box the noted lecturer proceeded to attract a crowd. He was not long in doing so. Within thirty minutes the street was occupied by several hundred people and everybody was thoroughly enjoying the entertainment.

The witty orator challenged any person in the audience to ask him a question, concerning various well known historical characters that he could not answer. Then the fusillade began. Questions were fired at him by hundreds. He answered every question, giving the date of birth and date of death together with the particular features of the lives of great men, whose names were presented. A semi-intoxicated man in the audience attempted to stump the orator with his foolish wit but he was ridiculed to the extent that he was compelled to get out of the firing line.

"Railroad Jack" is a phenomenon when it comes to relating the dates and deeds concerning great men. He is full of fun and sarcasm and his hearty good nature and wit holds the good will of an audience.

He claims that he has not slept in a bed for fourteen years. In summer time he sleeps on roofs and in bad weather in a barn or stable. He carries his own blankets and bedding, also carries a large chart which he uses in some of his street lectures.

"Jack" has been in Columbus for the past eight months. Almost daily the Columbus papers contain columns concerning the deeds of the remarkable man. It is said that he drew the largest street crowds in Columbus ever seen aggregated in the city. He is entertaining in the extreme and a large crowd lingered late into the night Monday to listen to his interesting descriptions.

"Railroad Jack" is forty-four years of age. He has travelled in every country in the world. He claims that he does not drink a drop and never did. He was born in Kalamazoo, Michigan, and when a small boy, he was famous for his remarkable memory. The early death of his parents induced him to take up with the roaming life and he has been a roamer ever since. He has lectured in every town or village in Michigan and has spent many months lecturing in the streets of Detroit.

"Jack" left on a late Hooking Valley train Monday night for Toledo where he will lecture for several months.

### FEAST OF WEEKS

Marion Congregation of Israel Observes Pentecost.

The most important holiday on the Jewish calendar, Pentecost, or the Feast of Weeks, is being celebrated at the local temple of the congregation of Israel today.

This festival occurs on the sixth day of the third month, Sivan. It is called the feast of weeks because 49 days, or seven weeks, duly numbered, elapse between the second day of passover, when (during the existence of the temple) a sheaf of green barley was offered, and this festival, when two loaves made of the first flour of the wheat harvest were "brought before the Lord." It also is the anniversary of the delivery of the commandment from Mount Sinai. The first day the Israelites redeemed from slavery and superstition; the fifteenth day a law was given them for their guide through life; therefore, they are commanded to number these days and remember them.

Special services will occur in the temple rooms this evening, Mr. Henry Strelitz presiding.

Relics from Spain of the time the country was under Moorish rule will be exhibited at the Seattle fair this year. There will also be a reproduction of the Alhambra, made famous by the writings of Washington Irving.

### SALE IS QUITE LARGE

Seats for the Gaiety Concert go Like  
Hot Cakes.

The seat sale for the Gaiety concert at the Grand this evening is most flattering and is accepted by Miss Mary Gaiety, the feature artist, as a personal compliment to herself and her art. The talented young violinist never appears to better advantage than in her home town, where friendship lends inspiration to natural ability. In addition to Miss Gaiety, Miss Virginia Fay Huber, whistler, Mrs. Louise Rendings, soprano, Miss Helen Louise Davis, mezzo-soprano, and Mrs. Ray Anthony Hamilton and Griselda Davis Dombagh, pianist, will appear on the program.

Something New Under the  
Sun.

Readings from original MSS. for social or church functions will be given at moderate rates. For particulars address Mrs. Rhodes Campbell, No. 24 Montrose Avenue, Delaware, O. 5-25-2t

### A HANDSOME WINDOW

Dezman and Jenner Exhibit Civil  
War Relics.

One of the handsome window displays of the west end of the city is that of the Denman-Jenner Dry goods company, on West Center street. The various equipment used by the Army of the Potomac in the Civil war are arranged in nice fashion upon an American flag. A canteen used in this army, a pipe, shot and balls, bugles and army accoutrements are shown and have attracted much attention. The relics are largely in the possession of W. B. Denman, who was a soldier in the Civil war.

Save Half by Buying Notices at  
Uhlir-Phillips' on  
Wednesday.

See on page 8 the announcement of the first Wednesday "1-2 off" Notice Sale—with lists of items attached.

The sale lasts but a single day, remember—tomorrow. Don't ask for the same prices on Thursday.  
THE UHLIR-PHILLIPS CO.

### MADE A FINE CATCH

Marion Anglers Bring Back Fine  
String of Fish.

Nelson Abel, Herman Feldner, D. R. Crissinger and H. B. Hane returned Monday from Old Hen, Canada, where they had been spending several days fishing. In order to demonstrate their fish stories to their friends, the party brought back over three hundred pounds of the finest black bass that has ever been seen in the city. The largest fish among the several hundred which were caught, was hooked by D. R. Crissinger and weighed nearly four pounds.

The members of the party will celebrate their great catch Tuesday night with a big fish supper. The quartette was elated over its success and claims that it was one of the most enjoyable outings experienced in many years.

### Eczema A Germ Disease

Myramids of Microscopic Animals In-  
fest the Skin of the Sufferer.

When the skin of an eczema sufferer itches and burns in untold agony, do you know what is going on within the pores of that skin?

Myriads of microscopic animals are gnawing at the flesh, breaking down the fine cells and causing fevers, thick scales and that terrible itch. The germs multiply faster than Nature can throw them off.

Now there is only one way to get rid of these germs—they must be killed in their lodging places. Dosing the stomach or trying to cure the blood will not, of course, kill the germs, and that is why all the blood remedies fail in eczema; that I also why salves which do not penetrate can do no permanent good.

Ordinary oil of wintergreen properly compounded in liquid form will penetrate the pores of the skin and kill the eczema germs. If properly mixed with thymol, glycerine and other ingredients (as in D. D. D. Prescription) this wash will build up the tissues of the skin and promote its healthy growth, giving Nature a chance, while killing the germ faster than they can multiply.

The Charles Schmidt and company of this city carries D. D. D. Prescription also D. D. D. Soap in stock.

## OLD TROUBLES BREAKS OUT IN NEW PLACE

Son Severely Chokes Father,  
John I. Court.

Affair Will Probably be Aired in  
Courts, Sooner or  
Later.

The Court family troubles broke out afresh this afternoon when a row occurred at the home near Newman's. According to the story brought to this city by neighbors this afternoon, John I. Court is in a very serious condition as a result of an encounter with Lester Court, his son. It is charged that the latter choked his father in a scuffle and was only prevented from doing him more serious harm by neighbors. Mrs. Florence Curren, formerly housekeeper for John I. Court, was a witness to the struggle the cause for which none of the parties would divulge. Affidavits will be sworn tonight, and it is probable that Lester Court will be arrested on a serious charge.

On Monday, young Court was bound over to the grand jury under \$100 bonds for assault and battery on Mrs. Florence Curren. Not long since, a son of Mrs. Curren's thrashed John I. Court and Mrs. Curren resigned her duties as housekeeper at the Court home. She then brought suit for damages and for wages alleged to be unpaid.

The suit was withdrawn last week at the request of both parties, the plaintiff paying the costs. While the authorities surmise the cause of the many rows which have occurred, none of the Courts will make any statement in regard to the trouble. In the trial of the case and the one pending against young Court, it is expected that the cause of the trouble will be divulged.

### WHAT SMALL SAVINGS WILL DO.

This table shows how small savings accumulate at 6 per cent interest, compounded semi-annually.

Daily Savings	In 5 years amounts to	In 10 years amounts to
\$ .05	\$ 106.15	\$ 248.00
.10	212.30	497.00
.25	530.75	1,242.50
.50	1,061.50	2,485.00

Begin now and try a systematic plan of saving.
